Land Town Council Tuesday afternoon turned down a bid on an economy remodel Gulfview School some of its overcrowding indicated it will try to board of supervisors to financial assistance for undertaking.

The company constructed the streets in 1958 but they have not yet been accepted by the town because of reports the construction does not meet specifications. Engineer J. Norton Hoas, Jr., selected by the town to determine the condition of these streets but to be paid by the company, asked council for partial payment of his \$550 fee but was told the contract read so he could not be paid until his entire contract is completed.

TREE CRASHES TWO HOUSES - Wind knocked this huge dead tree down across two houses on Felicita Street Monday crushing the corner of one house and puncturing five holes in the roof of the other.

Chief Police, Fireman Added to City Staff

St. Louis has employed 37 policemen and firemen already in the police departments will be able to have a day off each week.

Two houses on Felicita Street were damaged and a woman and her two grandchildren narrowly escaped injury Monday when wind knocked down a huge dead tree.

Mrs. Tujague said she and her two grandchildren, Billie, 12, and Ronnie, 10, were in the next room when they heard and felt the tremendous crash in the bedroom which they had just left.

Following removal of the tree and initial roof repairs, James Larroux, who began repairs soon after the incident, said the tree also knocked five holes in the roof of the Pomez house. He estimated damage to the two homes and contents at \$1,000.

Meter Removal Sought

group of beachfront and St. Louis merchants and professional men Monday petitioned City Commission Council to remove parking meters in those areas.

deMenthusia, Alden Manfroy, Octave Delph, Frank Trapp, Lucien Carmichael, David Trevel and George diBenedetto, Joe Hughes, who did not sign, was also present.

The petition requested council to remove the meters on the grounds the merchants felt they were harmful to their businesses and were discriminatory as the meters are placed only in that part of town.

On the subject of merchant cooperation in not taking up parking spaces, Manfroy said he was sure he could get half of them to go along with the idea. He observed this would provide ample parking spaces for customers and said the only times he felt beachfront parking was unavailable during the summer months and then mainly on Saturdays and Sundays mainly.

SJA Ball To Launch Holidays

The magical, glittering and gay pomp and ceremony of make-believe royalty will open officially the Mardi Gras season here when the Parents Club of St. Joseph Academy present their 28th annual Carnival Ball at 9 p.m. Friday in Memorial Hall at the academy.

Always a cause of much speculation as to the identities of the monarchs, the ball has as its theme, Around the World in 80 Days. Decorations are rumored to be very colorful and extravagant and the rulers and members of the court will be costumed and masked.

An invitational party in complement to the royal couple will be at midnight at Bay-Waveland Yacht Club.

Tuesday, Mardi Gras Day, the entire Bay Waveland area will celebrate before the solemn Lenten season begins Wednesday. Mayor John A. Scalfide issued his annual proclamation stating "our people are entitled to recreation and recess for at least one day from their worldly cares".

ACTION IN A-AA AFFAIR - St. Stanislaus College and Ocean Springs High cagers squared away in the opening game Wednesday night of the sub-district A-AA playoffs being staged this weekend in the Bay High gymnasium, adding to the excitement of the Carnival season for the young people. Supervisors Shuffle Recent Appointments

A shuffle of recently appointed county supervisory employees was voted Monday over the dissenting votes of Board President R. G. Hubbard, Jr. and Charles Russ.

Arthur J. Rogers of Gulfport who was appointed Jan. 3 to succeed Curtis (Red) Mobley as assistant chief engineer for the county was shifted to superintendent of seawall maintenance at \$600 per month. Payment of Rogers salary will be made out of funds allocated for seawall use rather than countywide.

Hubbard and Russ, Beats 5 and 1 respectively, voted against all of the transfers while Charles Lavinghouse, the Frierson and James Necaise voted for. When voting nay to the appointment of Rogers as seawall maintenance superintendent, Hubbard remarked there were already two many seawall supervisors, that he had employed two foremen for many years.

Prior appointment of J. W. Olsen as seawall superintendent was rescinded and he was appointed seawall foreman. Again the vote was 3-2.

Payment of \$300 to superintendent of education out of the 16th Section fund was approved unanimously after school board attorney Walter James Phillips said he was entitled to that amount under Chapter 297 of the Laws of 1958.

A motion by Russ to pay Mobley for part of work done in January as superintendent of seawall maintenance died for lack of a second and on motion of the Frierson seconded by Necaise.

Rotary Is Told Filing Charges About Potential In Burglaries Of Salt Domes Await Holleman

SOS, meaning salt, oil and sulphur, are the top natural resources of the Gulf Coast States, according to Dr. R. A. Steinhilber, retired head of the geology department of Tulane University, who yesterday spoke on salt domes at Rotary's luncheon.

After tracing historically the importance of salt, of which there are 1,500 uses in addition to superstition, the speaker cited the vast potential of salt domes, which are vast conical formations of almost pure salt found so far only in North America, where they have been located in two areas, one in Mexico and the other in the Gulf Coast States of Texas, Louisiana and Mississippi.

Dr. Steinhilber estimated the potential dollar value of one of these domes could be as high as \$17.2 billion in salt, oil and sulphur, the latter two being frequently found in connection with a salt dome. These assets, the professor predicted, would cause an industrial migration to this area if industry received the cooperation and protection of the states involved.

Board Rejects... (Cont. from Page 1.)

School sale.

After the motion to reject was carried unanimously, Courge moved to build two classrooms and a principal's office but no action was taken on that.

Phillips suggested conferring with the area forester to see what income can be anticipated from sale of timber in 16th Section land. He and Courge made plans to attend the next supervisors meeting to see if that revenue could be earmarked into a building fund for the school.

Members cited a letter from Jackson on use of 16th Section money for school building which does not have approval of the State Education Finance Commission but Phillips said he was 99.9 per cent sure revenue from timber sales could be used while the principal itself could not be touched.

The attorney noted, however, there are no such funds available now and the situation is further complicated by the bus notes the school system owes the supervisors. As for use of surplus district funds for building, he explained that it depends on the source of the funds.

A check was asked of the three-fourths of 10 per cent fee submitted by Architect Fred Wagner for preparation of the Gulfview plans. The superintendent observed the board had thrown away \$140 there by letting the idea get that far along. Keller retorted that he thought everyone had settled on that plan and wanted it, adding that he understood meetings had been held with the Parent-Teacher Assn., the principal and others.

Courge said he was a P-TA member and knew it had never come before that body.

McCarthy suggested saving \$126 by cancelling fire extinguisher service as the system's three schools, noting they are covered by insurance and North Central is practically fireproof. He said he had never seen need for the extinguishers. Necaise recalled they were taken primarily for Logtown and Gulfview.

Payment of January bills was approved except for the fire service one and another from General Research Laboratories, holder of the board's contract for janitorial supplies, totaling \$868 plus shipment charges for rubber matting at North Central to protect entrance areas from scratches. Rouse said he had ordered it being told it was \$3 a running foot. The order stated 386 square feet and the board calculated it ran \$5.25 each. Phillips and Keller cited requirements to advertise for items over \$100 and expressed doubt the matting fell under janitorial supplies. McCarthy said it would pay for itself in maintenance and Necaise admitted it might do a good job but carried about the \$868.

Extension of the afternoon bus route into Pearlgrain was directed after complaints resulting from recent inclement weather. The board recessed until 9 a.m. Saturday, Feb. 18, and asked McCarthy to arrange with H. P. Smith of the state

Deputy Sheriff Gerald V. Price, Jr., reports the five youths arrested in connection with the wave of burglaries in recent weeks have been released to the custody of their parents.

The case is awaiting action by District Attorney Boyce Holleman now busy with the criminal court in Wiggins. The deputy sheriff said the sheriff has delayed filing charges on the boys pending the arrival of Holleman.

Following the arrest of the boys last week Sheriff Gerald V. Price said that at least 12 burglaries have been solved with the arrests. Four older youths have confessed to participation in one or more of the break-ins according to the sheriff, and one other may be implicated.

Meter Removal...

placed the meters in one part of town to help merchants in unmetered parts.

"This petition is a matter of public record and in later years it could be read to mean we had done just that and that is not true. He said meters did not seem necessary for other parts of town, and the wording of the petition indicated that the meters had been placed downtown with malicious intent and malice aforethought.

A heated exchange between Mauffray and the mayor followed and Delph said no such implication was meant by the petition. The merchants just wanted the meters removed.

Mayor Scafide reminded the group they had been approached before the meters were installed last May and no one had objected then. He said only one person had voiced criticism to him personally against the meters.

Commissioner Warren Traub reported collections from the meters average about \$55 per week in winter months and double that in summer time. Half of the money is placed in the Parks and Playgrounds Commission fund and the other half is paid to Duncan Co., lessors. The meters were leased on a trial basis for a year and the mayor observed he did not know whether or not if council decided to remove them if the city would be released from the contract prior to the expiration date of the lease.

Names appearing on the petition were Octave Delph, Alden Mauffray, J. E. Casanova, Robert Bankston, E. J. Arceneaux, Edward Crudden, George diBenedetto, G. J. Gleim, U. S. Cuevas, Frank Trapani, Frances Faurcetta, Russell Maurigi, G. S. M. Seuzeneau, Rene deMontluzin, Robert Lauderdale, A. J. Piazza, M. A. Phillips, D. A. Treutel, Dr. Otto Mollere, P. J. Treutel, A. H. No Word Heard Oyster Dredging Season Closes On Extradition Of Evans Men

District Attorney Boyce Holleman has not received word from California authorities as to when a hearing will be set on extradition proceedings for Charles and Eugene Evans, brothers charged with armed robbery, auto theft and kidnapping in the Dec. 21 hijacking of a Steffel Bros. truck near Kila.

The pair were arrested in Solano County, Calif., Jan. 17 by Sheriff Al Carboza and are being held under \$10,000 bonds for 30 days.

Sheriff Gerald V. Price reported nothing new on the search for other parties believed to be involved in the hijacking which netted the group of masked men a \$2000 cargo of liquor and \$2,000 in cash. He has never named the number of warrants out.

Commissioner Warren Traub reported collections from the meters average about \$55 per week in winter months and double that in summer time. Half of the money is placed in the Parks and Playgrounds Commission fund and the other half is paid to Duncan Co., lessors. Parties Fete Miss Parker, Bride-Elect

Miss Gayle Parker whose wedding to Gerald A. Bienvenu will take place at 2 p.m. in Our Lady of the Gulf Catholic Church has been feted at two pre-nuptial courtesies in the last week.

Friday evening Mr. and Mrs. C. C. McDonald and Mr. and Mrs. John J. McDonald entertained at a buffet supper and kitchen shower in compliment to Miss Parker and her fiancé in the home of the latter on N. Beach Blvd.

For the occasion, Miss Parker chose from her trousseau a toast lace frock accented with brown accessories and a white orchid corsage, a gift of her hosts.

Her mother, Mrs. Leo Parker, selected a gown of beige wool and brown accessories while the groom-elect's mother, Mrs. R. V. Bienvenu, wore a powder blue crepe. Their flowers were white camellias.

Similar blossoms were used at intervals in the reception rooms and in the dining room a large arrangement centered the white linen-covered table. A wedding cake was placed at one end and a silver coffee service was at the other. All other appointments were in silver.

About 35 guests were present. The home of Mrs. Dan M. Russell, Jr., on deMouthuzin Street was the scene of a miscellaneous shower Sunday afternoon for the bride-elect with Miss Harriett Ward as co-hostess.

Miss Parker selected a lilac wool with black patent leather accessories and a pink camellia at one shoulder. Mrs. Parker was in a sand and brown checked wool sheath and Mrs. Bienvenu in green crepe. They also wore pink camellias.

In keeping with the pink and white color scheme, arrangements of pink camellias trimmed the living room and dining room. The dining table was covered with a white lace and linen cutlery cloth and held a heart shaped arrangement of pink perfection camellias topped with a doll dressed as a bride. Silver appointments completed the table decorations and Russian tea and Danish sandwiches and cookies were served.

Out of town guests were Mrs. Charles Feigel, Mr. and Mrs. Carl Feigel and sons, Mr. and Mrs. Tex Hughes and daughters, Mrs. William McQueen, Mr. and Mrs. Earl Knight, Tobin Underwood, Jr., Miss Helen Alexander, Mr. and Mrs. Joseph Laura and daughters, Mr. and Mrs. Arnold Haas, Miss Sharon Haas, all of New Orleans, Mrs. Clyde Drummond and Mr. and Mrs. Leon Capdepon of Gulfport and Mr. and Mrs. Guy Lambing of Mississippi City.

Dietrich-Dumestre Vows Spoken at St. Alphonsus

Brass vases filled with white roses trimmed the altar of St. Alphonsus Church at 10 a.m. Saturday in New Orleans for the wedding of Miss Piccola Dumestre, daughter of Mr. and Mrs. Jules Dumestre of New Orleans and Waveland, and Louis Dietrich, Jr., son of Mr. and Mrs. Dietrich of New Orleans.

The Rev. Thomas Moore performed the double ring ceremony in the presence of a large gathering of friends and relatives.

Escorted by her father, the bride chose a gown of candlelight satin and Chantilly lace. The fitted bodice featured a softly rounded neckline trimmed with lace and pearls. Her bouffant skirt was draped on either side and ended in a chapel train. She wore a fingertip veil of silk illusion attached to a small cap of seed pearls. Her only jewelry was a single strand of pearls and she carried a round bouquet of white rosebuds trimmed with maline puffs and white satin ribbons.

Miss Diane Grass of Waveland was maid of honor. Bridesmaids were Misses Dorcel Russell of Waveland, Joy LeBlanc of Harvey, La., Margaret Dietrich, Mary Ferguson, Carmel Gorgone, Marjorie Legendre, Sydney Trower, Leona Uzzetta and Charlene Cellos, all of New Orleans.

They wore velvet frocks of periwinkle blue made on sheath lines and topped with gathered puffs. Their headresses were tiny bows of matching velvet.

Judy Rauxet Is to Marry Alabama Man

Announcement is made this week by Mr. and Mrs. August Rauxet, Jr., of the engagement of their daughter, Judy, to Stephen H. Stant, son of Mr. and Mrs. Charles Stant, Jr., of Birmingham, Ala.

The marriage will be solemnized in the presence of the immediate families at a nuptial mass at 3:30 p.m. Saturday, Feb. 25, at Our Lady of the Gulf Catholic Church.

Miss Rauxet is a 1959 graduate of St. Joseph Academy and is attending cosmetology school in Gulfport.

Her fiancé was graduated from St. Stanislaus College last spring and is a member of the

Barracks. She received in a pale blue model of faille with a matching capelet and a small black velvet hat. The groom's mother selected an ensemble of cream crepe with matching accessories. Both wore pink carnation corsages.

The reception rooms were decorated in white carnations and maidenhair fern. The bride's table was covered in white damask and centered with a four-tiered wedding cake topped with a miniature bride and groom. For her wedding trip to the Gulf Coast, the bride wore a royal blue outfit, matching accessories and a corsage of white roses. They plan to live in New Orleans upon their return.

be taxed on an equal basis, he said. Gulfside is a non-profit religious establishment, it operates in the field, he noted, adding that it receives \$40,000 a year from the Methodist church.

Adelman Dominick Senter said he originally proposed the tax on Gulfside after being told by a minister there that profit was made on the homes and hotel.

He added that if religious groups want tax-free property they should buy property that isn't prime land and isn't so valuable.

Gulfside had received a tax bill \$712 higher than the previous year due to the assessment of additional buildings on the property, Council voted to readjust the assessment to the same as last year making the tax \$540.

Secretary Thelma LaPorte, new assistant clerk in the gas and water department, was set at \$125 a month, as originally proposed, on the motion of Senter after Senter's proposal for \$140 was defeated.

Mayor Lusher said a date will be set at the March meeting for an election on a proposed one-half-cent sales tax increase. The town is authorized to assess the extra half-cent if approved by voters, and Lusher proposes a 10-per-cent across the board cut in property assessments if the sales tax hike is adopted.
